## ***HOSPITALIZED***

**Tom Faulkner** went to ER twice during Easter week. At first, He had his arm pain and hand shaking really bad. He and his wife thought it was cramp, but didn't go away, so they decided to go ER on Easter Day evening. They treated him to calm down. He got better. But later on Thursday, He doesn't feel better so went to ER again. They kept him overnight. Dr for the heart checked his heart on Friday in surgery room and found it was blocked. So, Dr put 2 stents. He felt alot better. He is doing great now.

# Attention

## ***WINGO***

Sad News ! No more Wingo every month because not enough numbers of attendances. BUT YES Club is **STILL open**. And They will find a way to play something game if you come. Don't stay home ! Ü
